Bottle Fillers:

Enolmatic Wine Bottle Filler \$431 (\$480)

A great bottle filler for small-scale winemakers. Through the use of a vacuum pump, the Enolmatic filler automatically starts a siphon and automatically shuts off when the bottle is filled to the perfect height. The vacuum also serves to evacuate most of the oxygen from your bottle. The fill rate is fast - allowing you to bottle up to 180 bottles per hour.

Marchisio Stainless Steel Bottle Fillers:

3 Bottle Filler - \$584 (\$650)

5 Bottle Filler - \$764 (\$850)

Professional Style Bottle Fillers:

4 Bottle Filler \$1620 (\$1800)

6 Bottle Filler \$2070 (\$2300)

Other options are available including Vacuum Fillers, Nitrogen Injector, Electronic Level Sensor, and Mono Block Filler/Corker combinations

Only Available by Pre-Order

9 Gallon Narrow Mouth - \$85

14 Gallon Narrow Mouth - \$100

1.3 Gallon Wide Mouth - \$35

2.6 Gallon Wide Mouth - \$45

4 Gallon Wide Mouth - \$60

Hungarian Oak Barrels:

These barrels are equal or better in quality to French Oak barrels but available at a fraction of the cost of their more famous counterparts. Renowned for respecting fruit, Hungarian barrels offer winemakers a great option to impact the mouthfeel, structure and flavor of wine without stepping on the fruit and terroir of your grapes.

Due to the tight grain and slow release of phenolic compounds, you can feel secure storing your wine in Hungarian barrels longer than you can with other barrels. The slow process of micro oxygenation rounds the wine while various compounds in the wood such as hemicellulose, lipids, and lignins are slowly integrated.
